RED CROSS BUILDING FUND UNDERWAY

Pictured above are some of the extensive renovations made at the Minden Red Cross Hospital. These changes will make it more efficient and will provide better service and care for its ever expanding use. A Building fund Campaign started last weekend to raise money to pay this expenditure. Give generously, for this Hospital serves this area well, and is needed by many.

Haliburton County Goes Dial June 7

Dial telephones will go into operation in five Haliburton Highlands exchanges Sunday. Bell Canada has spent more than \$7,000,000 in a two-year construction program which saw five new dial offices built, with fast, modern switching equipment installed in each one. Major item, though, was the miles of wire and cable strung during both winter and summer by line crews imported from adjacent work centres. Close to \$5,000,000 was spent on cabling over a 2,800 square mile area, including the ringing of several resort lakes to make service available in places where it never was offered before.

NUMBER PLEASE ?

We would like to express our thanks to all persons of Minden for their kindness and patience with us during the past years.

As of June 7, 1970 the people of Minden will not have us, the 12 operators who have enjoyed serving you, to answer and ring numbers for you.

Some of you may be glad to know that now you can just pick up the receiver and dial the number you want; others will be sorry to see us leave because it is sometimes difficult to find a number; to find the correct time, etc.

It gives our spirit a lift when after going through an argument with some unreasonable person who persists that we are not ringing the number they asked for, to speak to a person who gives us a word of praise for our efforts. By a word of praise I simply mean a "Thank you operator," or "Thank you for trying operator." We find that 98 per cent of the people are polite and appreciative.

We would also like to thank Elaine Anderson, our Chief Operator, for her help in the training she gives us. Alice Morrison

would also be included in this for her 12 years of faithful service.

You can always count on Bonnie Maxwell for a joke and Gwen Walker to laugh at it; Donna Perrin is our midnight girl, she is the one who walks around during the day with her eyes closed; Gala Stamp and Wanda Davis come in hungry and go out starving. For the girl who is sure to collect from pay phones, we count on Beryl Congdon. Edna Taylor is the girl from the east with her quick laugh and friendly smile; Carole McKelvey is the one with the singing voice; Adele Coulter is the one who blushes, even over the phone; and Diane Taylor is our short blonde to finish off the group.

We hope you enjoy using your new dial phones.

— "Operators" of Minden

The five exchanges: Haliburton, Minden, West Guilford, Wilberforce and the newly-created exchange of Gooderham. Nearby Carnarvon exchange customers got dial phones one year ago. Carnarvon exchange was carved out of the west end of the West Guilford exchange.

\$30,000 GRANT APPROVED FOR HOSPITAL EXPANSION

County Council passed a motion at their last meeting here in Minden approving a grant of \$30,000 towards the Ross Memorial Hospital expansion program in Lindsay, stating that the amount will be paid in three installments beginning next year.

ROTARY BINGO WINNER

On Thursday of last week, Mrs. Ern Hewitt was the full card bingo winner, walking away with \$25.00.

MINOR BALL LEAGUE TO BE FORMED

Some interested parents are going to form a Minor Softball League here in Minden. All those from 6 years of age to 18 years of age interested in playing ball are asked to contact one of the following: Larry Scott, Don Campbell or Al Greir.

Last Saturday morning the boys from 6, 7, 8, 9, played at the Fair grounds, these boys will play at this time every Saturday morning unless notified. We are still short a few boys in this age bracket, so if you want to play, be at the park at 8:30 a.m.

TOWNSHIP OF SNOWDON

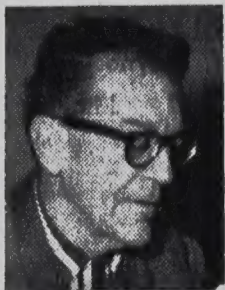

20 acres with 2400' frontage on highway 519. Nicely treed, 2 acre pond on property. Good building lots.

TOWNSHIP OF STANHOPE

Excellent building lot 200' X 400'. Level and treed. Close to lake and river. Paved road. Price \$3,000.

Send for our free brochure. Listing property in the Minden and Haliburton areas.

HERE AND THERE

with Fenwick Finch

I have another job for the bird experts. One of my close neighbours saw a mother bird and four little ones walk across her back lawn and disappear in the long grass of a field.

The bird was smaller than a partridge and marked with gray and brown but had a fairly long beak. She was wondering if it was a brown thrush. I sure couldn't help her but maybe some of my readers can come up with something.

* * * *

Dogs are still running loose and making trouble for the garbage collectors. Maybe something will be done about it.

* * * *

Now that the tourist season is here again and the roads are being filled with traffic it might pay to think about this. The majority of the accidents are caused by speed too fast for the road conditions. Heavy traffic demands a slower speed.

One of the myths is that the motorist who travels in the off-peak hours escapes traffic hazards.

According to the Department of transport the Victoria Day holiday shows that from 6 p.m. to mid-night on Friday there were three fatal accidents — in the same time period on Monday there was one fatal accident. These were the maximum traffic hours.

During the off-peak hours of Saturday and Sunday there were ten fatal collisions and 12 deaths. On Monday morning from 12 a.m. to 6 a.m. there were six collisions and seven deaths.

Drive carefully when you come up to visit us — life is short enough as it is without risking your life for a few extra minutes.

With the passing of the long week-end I have been able to clean up my lawn and get ready for the summer. The usual mess was there thrown from passing cars — beer bottles, pop cans, empty cartons etc. etc. There was one type of debris that has disappeared, — now, either the oldest sport in the world has fallen into disrepute or the technocracy of the "pill" has done away with the product — I favour the latter viewpoint. Anyhow, it makes for less picking up.

* * * *

Well, that just about does it for this week. Until next week, think on this — A woman may put on a golf suit and not play golf — she may put on a bathing suit and not do any swimming — but, when she puts on a wedding gown, she means business.

* * * *

Until next week, drive carefully — we have a beautiful spot up here don't spoil it by spreading yourself all over the landscape.

Fenwick

LIBRARY NEWS

The 68th Annual Conference of the Ontario Library Assoc. met at the Inn-on-the Park on May 22nd to 24th, the County being represented by Mrs. Evelyn Hewitt, Mrs. Mary Packard, Mrs. Mary Walling, Mrs. Hazel Welch, Miss L. Male, Mrs. Gayle Billings. It was one of the most interesting conferences that the library staff has attended and given us in Haliburton with small libraries an insight to the present day libraries. The trend is to see, hear and read through posters, demonstrations, art, music and books. As there were almost 700 members attending, the groups. The University and School Librarians benefit from the ETV and at that session Mr. Elwy Yost was the speaker. The Markham Public Library put on a demonstration, the theme being 'The Town Library prepares for the 70's'. As the Mayor of Markham was in attendance the subject of censorship was brought up regarding the recent resolution she put forward to the Ontario Association of Mayors and Reeves. The majority of the librarians oppose the resolution so it will be interesting to see what will develop when the resolution is brought before the Canadian Association of Mayors and Reeves at their Convention in the near future.

The highlight of the Convention was the interesting and informative address given by Mr. Lister Sinclair, who spoke on a variety of topics relating to man's civilization and their role in the 70's.

Mrs. Mary Packard attended a pre-conference workshop on the 20th of May with Mrs. Jan Nowakowski, (the Victoria County Librarian) at the Inn-on-the-Park. The emphasis of this workshop was on Picture Books. This was limited to 100 members and the groups being much smaller we got a more intensive study of the subject. The guest speaker of this workshop was Mr. Ezra Jack Keats, the well known author and illustrator of children's books. He showed films of three of his books and explained how he makes his paintings and collages tell the story so the smallest child can 'read' his books.

With all the library aids to day the library can become the cultural, educational and entertainment centre of our community.

RED CROSS SERVES YOU
EVERY STEP OF THE WAY

Announcement

Nora and Shiela of LaNore Beauty Salon would like to announce they have sold their business to Mr. and Mrs. Allan Cox of Minden, who will commence business on June 15th, 1970.

At this time Nora and Shiela would like to thank all their customers for their past patronage and trust that they will continue business with the new owners.

The new owners would like to announce that Nora and Shiela, along with the rest of the staff will continue to work in the salon.

MINDEN W.I. HELD MAY MEETING

The May meeting of the Minden W. I. was held at the home of Mrs. M. O'Neil. There were many laughs as the members were asked to guess the combined weight of the secretary and president. Mrs. Sears won, being within 3 pounds of the total; Mrs. Oswald Snell was the winner of the box of groceries.

Mrs. Fairfield gave a very interesting talk on Public Relations and Mrs. Sears described the progress of the Tweedsmuir History which has grown so fast, a second book is needed. Mrs. Albert Pogue read a very interesting poem, "My Mothers Apron".

During the business session final plans were made for the bus trip of May 27th. It was also decided to participate in the Fall Fair by donating towards the prizes for Public School Children.

Plans were made for a Bake Sale on July 3rd. Tickets will be given to members at the June Picnic, these tickets are on an afghan made by Mrs. Clarke and will be sold during the summer months.

At the close of the meeting a very enjoyable time was spent over the tea served by the hostess.

On May 21st. a car load of Womens Institute members journeyed to Bobcaygeon to attend the District Annual and 70th Anniversary. A very enjoyable day was spent and many new ideas were brought home by the representatives.

SLOW GOING

Rome wasn't built in a day — the same can be said about Minden's Recreation Centre and artificial ice arena. Thanks to those who felt we didn't need one and voted it down last summer.

A year has passed, this has been their reward.

However progress is being made, as slow as it may seem to those who are eager to have a new recreation centre, and know its value and need to this community. In time a spanking new centre will shine in the sunlight at the fair grounds — and it will be used by all!

From the day the vote was turned down, a small committee of keenly interestd citizens have been working slowly, but surely towards the day when the first sod will be turned. Reeve Charles Brandon has been the only member of council interested in this project, and has chaired all the meetings.

Some progress to date has been made. The committee, with the cooperation of Peirson Buildings Limited of Peterborough, have designed an arena which costs in the neighbourhood of \$300,000. The front portion which will be the community centre costs \$62,428. The committee have purchased the design and building plans at a cost of \$1,200 and have hopes of starting construction this year, of this front portion.

At present the committee have \$35,000 cash which includes the old artificial ice fund, the Rotary Club donation, and walkathon money which was raised last spring, along with a government grant, and part of the Kinsmen donation. With the long delay in plans, more money is hard to come by, and further donations from the walkathon have not been turned in. Most people have been waiting to see what is going to happen. Unfortunately it is difficult to make anything happen, unless money is forthcoming.

Sinc Nesbitt, who is very interested in this new community centre told the committee at its last meeting (Wed. May 27) that he felt the construction companies in town, Prentice Roads, McKnights Haulage, J. C. Kernohan and himself would donate time and equipment to do the excavating and backfilling, free of charge, saving the committee an estimated \$1,200. This kind of a donation comes as a great help and shows that there are still some who have real community spirit.

It is the committees' plan to go ahead with the construction of the building using the \$35,000 cash on hand to build the shell, knowing that when this portion is up, the rest of the money needed to finish the project will be more easily raised. This idea needs the approval of Council, since it will be a municipal building.

Council will be approached on this matter at their next meeting, by a delegation from this committee and a representative of Pierson Building Limited. If permission is granted, construction could start in the very near future. If Council turns it down, it will throw another wrench into the works, but the motor will never stop.

Council members, even though they have shown no interest in this project will have to make a stand — the outcome should be interesting.

LETTER TO THE EDITOR

June 1, 1970

Dear Editor:

Just recently, in a casual conversation with Percy Burk of Lochlin, I found out about an 8 foot beaver house that could be reached in a canoe.

Most of my campers are city children who have not the opportunity of seeing so many wonders of nature that are common to your readers.

I just wondered if some of your readers could pretend they were a city child, and imagine what this child could learn. Perhaps, there are many places that they could suggest we visit. I know there is a pond that is famous for waterfowl and am trying to track this down. I think it was Martha Robertson (Mrs. Russell) of Lochlin who originally mentioned this.

Any help from your readers would be deeply appreciated.

Robin Patterson
Camp GayVenture,
Haliburton

P.S. Are there two or three old timers who would like to come and tell "Tall tales" of the good old days around a modern GayVenture campfire?

COUNCIL HELD SPECIAL MEETING

The Council of Anson, Hindon and Minden held a special meeting on Wednesday, May 27.

Reeve Charles Brandon was in the chair. Other members present were Deputy-Reeve Roy Windover, Councillors Robert Gorrie, Reg Booth, Allen Cooper. Also present were Richard Parisotto, Clerk-Treasurer and S. Weiss, By-Law Officer.

The bulk of the business was the reading and passing of six By-laws. Five of these were amending zoning. The other By-law was also the amending of Yield Signs By-law.

Council also passed a motion that the proposal of Royal Paving Ltd. be accepted for paving and repairs to side-walks. Hot-mix at \$22.00 per ton. Road-work Hot mix at \$18.00 per ton. Subject to the approval of the Municipal Engineer.

Council also passed the Development Plans and report for the Minden Park, submitted by Consulting Engineers and Town Planners Canadian Mitchell Associates Ltd. be approved.

Council gave the Road Superintendent, Mr. Earl Hewitt instructions to order the Fawcett Metal Products the necessary road signs as listed.

Fire-Chief Eldon Deacon was present to discuss with council the operation of the ambulance service by the Volunteer Fire Department. Approval will be sought from the O.H.S.C. regarding the proposed plan.

THURSDAY LADIES BOWLING LEAGUE

HELD BANAQUET AND PRESENTED AWARDS

The banquet for the ladies of the Thursday afternoon bowling league was held at the Parish Hall last Thursday evening, with the ACW providing the meal. Doris Craig the president extended a vote of thanks for the delicious dinner.

Years team in first place was Roberta Walker, Doris Craig, Eleanor Walker and Minnie Low. Trophies went to Nola Donilko for high average with 193, over seventy-five games; high triple went to Shirley Hughes with 859; and high single to Shirley Hughes with 339.

Gifts also went to second high

average, Marg Lonsberry with 193 for fifty-four games, second high triple to Marg again with 788 and second high single to Nola with 310.

The low team of the year was Ann Thurston, who received gifts. This same team of Ann Thurston, Shirley Brandon, Lorna Hicks, Rhoda Best, Isabel Harrison and Phyllis Sutherland were play off champs in this league and in the inter-bowling league as well.

Other awards went to Mima Burwood, high single with handicap of 295, high triple with handicap to Shirley Hughes at 671. Gifts for perfect attendance were given to Eleanor Walker, Nola Donilko and Jean Hyde.

Muriel Medley was presented and thanked the league for inviting her, she extended best wishes for a successful year in the fall.

Rev. Howard Best conducted the election of officers with the slate as follows: President Doris Craig, vice-president, Wynn La-Hay, secretary Jean Hyde, treasurer Rhoda Best.

Starting date for fall bowling was set for September 17th. Anyone is welcome to join this league, just call 155.

W.I. BUS TRIP

On Wednesday, May 27th., the W. I. sponsored a bus trip to Midland and Collingwood area. The first stop was at Sainte-Marie among the Hurons and a very enjoyable time was spent as the bus travelled back in time, visiting the abode of early missionaries and saw what could be done with a minimum of tools.

After a luncheon in Midland the next stop was the Ontario Zoological Park and was enjoyed by all, as the ladies went on a wild life safari and saw many animals, birds and monkeys. This park is indeed a museum of living specimens, representing major forms of the animal kingdom.

The remainder of the afternoon was spent in a tour of the Blue Mountain Pottery factory and proved very interesting, then a quick browse through Georgian China Warehouse sent most of the ladies back to the bus laden with packages of all shapes and sizes.

Supper in Collingwood finished off the excitingly exhausting day and the ladies arrived back in Minden tired but happy that the day had been nice and sunny. All expressed satisfaction that the tour under the capable driver "Mr. Ed" had been so enjoyable.

AROUND THE BASES

with "ARCHIE"

On Sunday, May 31 the 1970 version of the Haliburton County Softball League got underway. West Guilford, a new entry into the league this year overwhelmed Irondale, finalists last year 18 - 5. It certainly appears that West Guilford is a power to be reckoned with by the rest of the league.

The season started for Minden on Tuesday, in Haliburton. The first home game was Wednesday. The results of these two games will be reported next week. The remainder of the schedule for the entire league is printed in this weeks paper. For the benefit of Minden fans several permanent posters listing all home games will be posted throughout the area.

As mentioned last week, the league has decided to have a league president. Gene Newell, a tentative choice at that time, has decided to accept the position. Gene known and respected throughout the league for his baseball knowledge and skill adds a great deal of prestige to the position. His major tasks will be to settle disputes and protests that inevitably arise throughout the season.

Throughout the league, this week teams have been busy getting the field into playing condition. The major portion of this job was cutting grass and putting up home run fences. The latter is another new innovation this year. The fences are 200' feet down the base lines and 250' feet to deep centre. The essential purpose of home run fences is to give power hitters a chance to show their stuff and cut down on long ground balls that usually end up under cars or get lost in long grass. These fences should provide better baseball by fulfilling their essential purpose.

The Minden team has had four practices this year in an attempt to get into shape. This was necessitated by the increased calibre of play and a large turnout of prospective ball players. Since each team can sign sixteen players there will be an opportunity for many younger players to play this year. A list of players will be reported next week.

Throughout the season this article will report and tally the batting averages of the Minden team members. This will add a degree of inter-squad competition which is always beneficial to any team. We hope it doesn't embarrass some of the power hitters.

As can be seen, the interest among the players is high, several new innovations have been applied hopefully to improve the calibre of ball even further and consequently to provide better entertainment for the fans. The ball field is in excellent condition due to the work of team members. Practices have thinned out the number of players to a manageable size from which a team, as good as any in the league, will be formed.

It is hoped that the team will receive enthusiastic support this year. There is increased parking behind the home run fence. All home games will be played on Wednesdays at the Minden Fair Grounds and will start at 7:00 p.m. Check this article weekly for any changes in the schedule.

SPACE AGE ENGINES

We're not kidding! A Merc fishing engine is SO superior in design and ahead of the field, that it belongs to the Space Age.

Thunderbolt Ignition with Maker Points — Instant starts with up to 40,000 volts of power. Fastest, hottest spark in the industry.

Perma-Gap Spark Plugs — new super-tough center-electrode alloy resists spark erosion. Under normal operating conditions, Perma-Gap plugs will last the life of the engine.

Use Regular-Grade Automotive Gas — with Thunderbolt and Perma-Gap plugs, economical regular-grade gasoline is recommended.

"XK" Aluminum — a corrosion-resistant aluminum alloy that's 40% stronger than aluminum used in competitive outboards.

Add to these outstanding new features old Mercury standbys: Glide-Angle design, shearproof propeller drive; Jet-Prop exhaust, Shallow-water Slant; one-piece driveshaft and lower unit housings; Full Jeweled Power; fixed-jet carburetion; full silencing system; one-hand steering and throttle control; full forward-neutral-reverse gearshift, and you know we've got the Space Age fishing outboard.

Want to see one for real? Come on in, we've got 'em all on hand.

Grade 13 Students Took Exciting Trip

Mr. Wallace had predicted correctly, Thursday, May 14 was a beautiful spring day. And as 17 H.H.S.S. Geography students made their way to the Oshawa Municipal Airport, the D.C.-3 was preparing for its flight. We boarded the plane at 11:30 a.m. for a trip over the Niagara Escarpment. This afforded us an excellent view of the area and after making notes of the land uses, we landed at the St. Catharines Airport. As soon as the bus arrived, our group set out for Niagara Falls where 1 1/2 hours of free time was enjoyed. Then to work. Notes of the

land use patterns were made as the bus travelled along the concession roads. A stop was made at De Cu Falls, a power generating station where the Ontario Hydro have made use of the steep slope to harness the water power.

The next stop was at Ball's Falls, a unique conservation area featuring a deep cut in the Escarpment.

We then continued west along Highway 8, through rich farmland and arriving at Grimsby for a short stop. A few minutes later we arrived at the Casa Blanca Motel, a beautiful resort bordering Lake Ontario. One

unfortunate feature was the amount of dead fish along the shoreline.

Dismal skies greeted us Friday morning. After eating breakfast our group left for the Stelco plant at Hamilton. We were divided into smaller groups for the three hour tour. This provided insight into the operations of our steel industry. All of us were greatly impressed by the size of the plant and the process involved. The one disappointing feature of the tour was the obvious pollution. However, the guides 'assured' us that everything was being done to rectify this problem.

After our tour a stop was made at Burlington for lunch. We arrived home at approximately six o'clock. Everyone was satisfied with the complete success of this highly informative and educational trip.

AUDITOR'S REPORT

I report that, in my opinion, the above statement of receipts and disbursements fairly presents the results of operations of the Haliburton Highlands Regional Tourist Council for the year from April 1, 1969 to March 31, 1970 according to the best of the information and explanations given to me and as shown by the books.

Gerald M. Dawson
Chartered Accountant,
Auditor.

Haliburton, Ontario,
May 25, 1970

The Thinking Man's Game

It's been said that a good fisherman is almost a genius. Somehow he solves all the problems and catches fish when no one else does.

Consider the variables connected with fishing. They include water temperature, depth and clarity, vegetative growth, underwater terrain, the lure, the fish itself, and many other factors which must be taken into account.

It really doesn't take a genius to understand these things and apply them successfully. Almost any angler can learn how, according to Red Fisher, the fishing expert at Mercury outboards. The solution lies in developing a fishing system.

First you must experiment. Call upon all your experience to determine where you think the fish are and what lure they'll take. If your first guess isn't correct, change both the lure and the method of presentation. Don't try any one method too long.

When you get a strike, stop fishing and analyze each step of the successful cast and retrieve. Where was the lure? On top, bottom or in between? Was the retrieve slow, medium or fast? Did the strike occur in shade or sun? How far was the lure from the boat when the fish hit? What does the bottom of the lake look like?

When you've answered these questions, and any others you can think of, you're ready to make another cast — exactly like the one which earned you the strike.

ADVICE FOR THE LOST

With the spring weather people are beginning to travel deep into the bush.

One young tourist, about to take a hike through one of the more remote areas in this District, was asking advice from a veteran guide in the area.

"You got a map and a compass, I suppose?" said the guide. "Certainly".

"You got a deck of playing cards?" queried the guide. "No" was the reply, "why would I need a deck of playing cards?"

"It could save your life, son," the guide declared. "I always carry a pack of cards when I go in the woods. If you get lost, just sit down and start playing a game of solitaire. First thing you know, some fool will pop up behind you and tell you what card to play next."

DOLLARS AND GOOD SENSE

by William J. Martin

This column is a regular feature prepared by the Family Financial Counseling Service of the Avco Delta Corp., P.O. Box 2820, London, Ontario. All questions submitted to the above address will be answered in print or by mail. Names will not be used in print. However, all questions should be accompanied by a complete name and address.

\$\$\$

Dear Mr. Martin:

Is it better to borrow money from a bank or finance company or credit union when you want to make a big purchase or take it out of your savings account? I'd like to avoid the monthly payments and the interest and finance charges if possible.

Mrs. F. C.

Most people have the self discipline necessary to meet their financial obligations, fully

and on time, but they could not discipline themselves to the extent that they would pay themselves back when they borrowed from themselves.

I think it's better to leave your savings intact and undisturbed, in a bank where they are drawing interest, and to borrow money from a lending institution, even though the interest you would have to pay on the loan would be higher

than the interest your money would be drawing in a savings account. Once the money is withdrawn from your savings account, it's quite likely gone and will never be replaced. The extra interest is worth paying in order to keep your savings intact.

But be cautious. Don't borrow just because you have money in a savings account. You should never stretch your regular income beyond endurance in order to protect the funds that you have set aside for a rainy day.

Borrowing, with or without money in the bank, should be based on a good worthwhile purpose for borrowing and a capacity to repay the loan, meeting all payment scheduled regularly and on time.

**RED CROSS SERVES YOU
EVERY STEP OF THE WAY**

This Sunday happened years ago

Bell Canada brings dial service to HALIBURTON, MINDEN, WILBERFORCE and GOODERHAM. At this time all telephone numbers in these exchanges will be changed to seven digits. Customers in West Guilford will also receive seven digit numbers.

Starting the same day, no Long Distance charges will apply on calls between Gooderham, Minden, West Guilford, Carnarvon and Haliburton.

We started planning the introduction of this new local calling service a few years back. The reason is that a telephone exchange is so complex, it takes years to plan; months to build; and it must serve you, our customer, for many years to come.

All the new telephone numbers will be listed in the supplementary directory which you will receive soon.

Remember, to complete all your calls, dial all SEVEN DIGITS!

Bell Canada

Asparagus Gelatine Mold Celebrates Fresh Season

The world's all a-shimmer with green, growing things. Make a dish to match. It's shimmery, fresh lemon gelatine in a pretty mold with the season's greenest asparagus imprisoned in the clear gel. An envelope of Knox Unflavored Gelatine does the trick, scientifically measured to gel two cups of liquid. The refrigerator does most of the work. Check occasionally, and when the mixture thickens slightly, fold in the asparagus and other vegetables and leave in the refrigerator until set. Don't forget, fresh is best, and now is the time to enjoy it in seasonal, thrifter foods. Dieters, do note that this is a dish of very modest calorie count.

Jellied Asparagus

- | | |
|--|-------------------------------|
| 1 envelope unflavored gelatine | 1/2 cup diced celery |
| 1 1/2 cups cold water, divided | 1/4 cup chopped green pepper |
| 2 tablespoons sugar | 2 tablespoons diced pimiento |
| 1/4 teaspoon salt | 1 tablespoon minced onion |
| 1/4 cup lemon juice | 1 tablespoon capers, optional |
| 1 1/2 cups cold cooked asparagus cut into bite size pieces | |

Sprinkle gelatine over 1/2 cup water in saucepan. Place over low heat; stir constantly until gelatine is dissolved, about 3 minutes. Remove from heat. Stir in sugar, salt, remaining 1 cup water and lemon juice. Chill, stirring occasionally, until the consistency of unbeaten egg white. Fold in asparagus, celery, green pepper, pimiento, onion and capers. Turn into 3-cup mold. Chill until firm. Unmold onto crisp lettuce.

YIELD: 4 servings.

NOTE: Cooked green beans, carrots, peas or lima beans may be substituted for asparagus.

Health Unit Report

A vaccine is now available to tubercle women. Children, both the Health Unit for immunizing boys and girls, in the early zation of children against rubella (German Measles). Dr. C. M. Horner, Medical Officer of Health, has begun the first phase in this immunization programme, which should be completed before the end of June.

German measles is generally a mild illness, and when it affects children, it is of little consequence, but if the infection is acquired by a woman in the early months of pregnancy, the pregnancy may be seriously affected. Preventing this infection is the principal objective of german measles control. This can best be accomplished by eliminating the transmission of the virus among children who are the major source of infection for susceptible women.

Children, both boys and girls, in the early grades of elementary school should have immunization. As a history of german measles is not usually reliable, all children in the selected grades should have the vaccine. Immunization against german measles is to be offered to all children in grades one and two in the first year of the program, and grades one and four in the second year. Over a period of time the reservoir of infection in elementary school children will be reduced greatly, and within a two-year period all children in grades one to five will have been immunized.

There are approximately six thousand children in the four counties in the age group now being immunized against rubella.

**Your children aren't going to get
the education you got.**

FISHIN' FACTS

BY BOB HAWTHORNE

FLY LINE SIZES

The most common question I'm asked by fishermen is what size fly line to buy for a new fly rod? This of course, is impossible to answer without first seeing the rod and knowing what type of fly fishing the angler has in mind.

For many years there has been confusion, controversy, and doubt as to what fly line to use for a particular rod. Earlier, when nearly all fly lines were made of silk, fly line sizes were designated by letters of the alphabet. As an example, a size A fly line was .060 inches in diameter, a size B was .055 inches, and a size C was .050 inches etc. This lettering system worked fine until line manufacturers began making fly lines out of materials other than silk. Nylon virtually replaced silk, and dacrone lines have also become popular in recent years.

Since nylon, silk, and dacrone all have different weights, the old method of rating by diameter was no longer valid. It is weight, not diameter, that is important in selecting a line for your fly rod. To illustrate this point, an HCH silk fly line is heavier than an HCH nylon line. If you purchased an HCH line for your rod not knowing whether to buy silk, nylon, or dacrone, you could conceivably choose the wrong type even though you had chosen the right size.

To counteract this problem, the American Fishing tackle Manufacturers Association has adopted a new method of rating all fly lines by weight only rather than diameter as in the past. The new rating system uses numbers rather than letters to designate the size of a fly line. Thus if it is suggested that you buy a number 8 line for your fly rod, then any number 8 line will work with your rod regardless of who manufactures it. This applies both to floating and sinking fly lines.

To designate the different types of fly lines available, the following letters were adopted under the new rating system. DT means double taper; WF means weight forward; ST means single taper; F means floating; S means sinking; and L means level. Thus a DT-7-F means a double tapered, number 7, floating line. A line marked L-8-S would mean a level, number 8, sinking line.

This new rating system sounds complicated but really isn't. The system removes uncertainty about fly lines for many anglers, and should have been adopted years ago. Most major manufacturers suggest what number fly line they recommend for all their models available. This information is usually marked on the butt of the fly rod. Once you know the correct line number for your rod, then all that remains is for you to choose the type of line you want such as double tapered, weight forward, etc. The chart is not applicable to all fly lines available but can be used as a guide to convert fly line sizes from the old system to the new one.

Ontario's way of learning has changed, because our way of life has changed. Children today learn mathematics by discovering how numbers behave and what they mean. They don't study grammar for the sake of grammar, nor accept history without examining all view points. And the sciences they are taught are the sciences of the 70's.

The things your child learns today, will prepare him for the life style he'll face tomorrow. We'd be short changing our young people and our province if we taught them anything less.

Today the province has 16 universities. In the last four years alone enrolment has more than

doubled, and the total Ontario Government expenditure for student awards, scholarships and fellowships has risen from \$5 million to more than \$30 million.

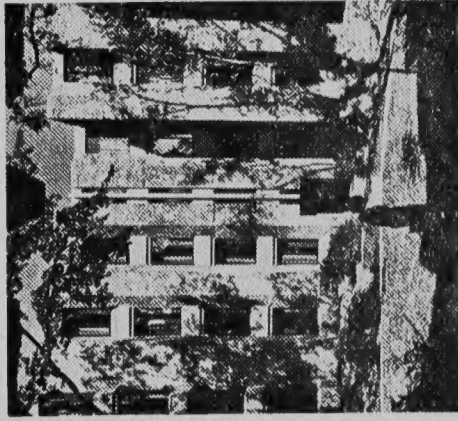

Other forms of post-secondary education are also growing rapidly. Example: the colleges of applied arts and technology are a new style of Ontario education flourishing from Sarnia to Thunder Bay. These community colleges offer diploma courses in everything from biochemistry to naval architecture and from air traffic control to advanced electronics. Starting from zero in 1967 Ontario now has 20 community colleges with 61 locations and some 38,000 full time and 34,000 part time students.

If you don't really believe we need advanced education techniques to face an advanced world, we'll give you a selfish reason. Your future. Ontario's economy has grown from \$14.7 billion in 1960 to some \$31.5 billion in 1969. Our incomes have doubled in the same decade. Our increase in exports is the second highest in the world. To maintain this kind of development, we need well developed people.

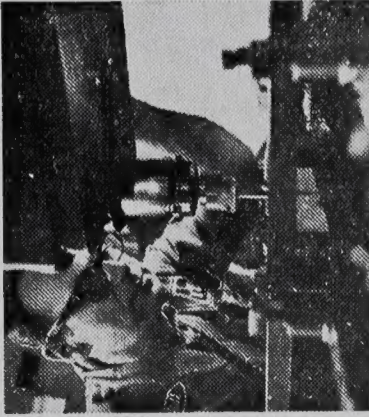

Our investment in education helps build a better future. But we need a strong economy to support our good intentions. One way you can help: when price and quality compare, shop Canadian.

Ontario's quest for knowledge continues after the sun goes down, with adults doing most of the studying. In Toronto alone evening courses number in the hundreds and thousands of adults study subjects ranging from carpentry to civics, pottery to poetry.

Ontario Universities now have an estimated 104,000 full time students and 69,000 part time students. Pictured above is one of the newest Ontario campuses, Trent university in Peterborough.

Ontario's labour force which topped 3 million last year for the first time is becoming increasingly skilled and competitive with other leading industrial nations. Our annual investment in manpower education is designed to continue the upgrading of skills through Ontario's program of in-plant training.

Canada's life style of tomorrow presents many challenges. But it's Ontario's style to meet these challenges today.

WEDDING BIRD — CLARK

Minden United Church tastefully decorated with white gladioli, daffodils and narcissi was the scene of the wedding of Muriel Ellen Clark, daughter of Mr. and Mrs. W. Moore and Earl Robert, son of Mr. and Mrs. Arvine Bird of Haliburton with the Rev. W. Oake officiating.

Given in marriage by her father the bride was lovely in a full length yellow lustre crepe gown with scalloped lace sleeves and a headpiece of a pearl tiara. Her bouquet was of white gladioli with red buds.

Her matron of honour was her sister Helen Brydson of Weston and bridesmaid, Laura Clark. They were dressed alike in full length mint ottoman peau de soie and carried bouquets of pink gladioli and their head-dresses were flower circlets. Ring Bearer was Michael Clark.

Best man was Jack Bird of St. Catharines and ushers Alan Brydson of Weston and Robert Bird of Toronto.

At the wedding reception and dance at the Canadian Legion Hall, Haliburton, the Bride's mother received wearing a navy sheath dress and jacket and accessories of white and corsage of pink gladioli. She was assisted by the groom's mother in a coral dress, beige coat and accessories and a corsage of white gladioli.

After a short honeymoon the happy couple are living at RR 2 Minden, Hall's Lake.

GARDEN TIPS

Chrysanthemums are ideal to brighten an annual or perennial garden. Young plants can be obtained from two-year-old plants by lifting them in May. Healthy, well-rooted stolons (young shoots) should be selected and watered with a liquid fertilizer such as 20-20-20 to prevent any check in their growth. They can be transplanted even in full bloom provided a good ball of soil is moved with them, say horticulturalists with the Ontario Department of Agriculture and Food. Once replanted the young plants should be well firmed and watered in their new site to insure optimum growth and bloom.

THOSE DEER

DEPT. LANDS AND FOREST
Male deer grow new sets of antlers each year, and lose them each fall. These antlers are very hard and solid. Why then are 'discarded' deer antlers not found more often? Rodents eat them for the minerals they contain.

ABOUT THE TOWN

With Jeanne Sears

One item of note on the bus trip last week was the first hospital in this country, with its beds covered with blankets and some on the floor. A great difference from our antiseptic hospitals of today.

HALIBURTON CHAMBER HELD ANNUAL MEETING

The Haliburton Highlands Chamber of Commerce held their annual meeting at the Royal Canadian Legion on Tuesday, May 26th.

President, Mr. Art Ward called the meeting to order. Secretary-Manager Mr. Norm Craig gave his Annual Report.

Everyone was pleased to hear that the financial report, as prepared by the Auditor, Mr. Gerald Dawson, was improved over last year.

Mr. Lorne Coburn presented the Nominating Committee, and the election of officers took place. The following are those who were elected to office:

Murray Agnew, Larry Breakenridge, Lorne Coburn, Mrs. Gerald Dawson, Robert Freeman, Bruce Henry, Ray Hyde, Mrs. Richard Kirkwood, Earl J. Palmer, Ric Poole, Merv Robertson, Sid Stamp, Art Ward, Ken Wilson, Mrs. June Wimmer, Carm Wright.

President Art Ward gave a report on the highlights of his two years in office, as well as the new challenges to be faced by the Chamber in the years ahead. He emphasised that the off-season promotions as being Chamber is now placing on the one of the most important factors in improving the economic growth in the County. He also stated that the Chamber would lead the way in an orderly program to halt pollution of the natural resources.

Inside this edition you will find the financial report of the Haliburton Highlands Chamber of Commerce.

GARDEN TIPS

The pruning of hybrid roses can affect both the quality and quantity of the blooms in the months that follow, say horticulturalists of the Ontario Dept. of Agriculture and Food.

Damaged twigs and twisted growth should be removed first. Next the two-year-old wood close to the ground should be cut. This will leave four to six well-spaced canes which should be cut back to an outward pointing bud. For larger bushes with more blooms, the stems should be left, while for exhibition blooms, the bush should be cut back more severely.

RED CROSS SERVES YOU

NOW HEAR THIS

by Lorna Rogers

Contrary to rumors that have been circulating for the last year or so — Max will be back. Max Ferguson that is, whose weekday morning show finishes for this season June 26. Says CBC radio variety supervisor Ken Dalziel, "It is a certainty that Max will be a feature of our fall schedule. We will be putting together a Max Ferguson package, but the exact format is not settled. There is a possibility that, to do his inimitable skits, he may work with the afternoon newspapers which would make things a lot easier for him." Max is also scheduled to star in an unusual new daytime TV series, 55 North Maple, an interview show in a living room setting where he'll share the spotlight with co-star Joan Drewery. They'll talk with a variety of people who drop in to visit. In it, just as on his radio show for the past 23 years, Max will show his fascination with human speech.

Listeners will be able to hear excerpts from Morley Callaghan's latest novel even before his publishers have seen it. Thumbs Down On Julian Jones has had a long gestation — since 1942 to be exact. It's the action-filled story of Julian Jones who challenges his destiny on a Canadian Navy corvette during perilous trans-Atlantic run in the early part of the Second World War. Callaghan himself will read portions of his new novel on Anthology for four Saturdays beginning June 6.

Two new CBC recordings have just been released commercially — Pat Hervey's Peaceful, and What The World Needs Now by Barbara Gryfe. Pat Hervey is the talented young pop singer from Toronto who has been on such shows as Holiday Ranch, Country Hoedown and The Tommy Hunter Show. Last summer she had her own TV series, produced in Vancouver, with the unusual title of Miss Patricia's Phantasmagorical Presentation of Songs and Things. Barbara Gryfe is just 17, and tiny, but she has a big voice that is reminiscent of Streisand.

The wacky imagination of Rod Coneybeare has been acting up again. This time he's come up with a surrealist light entertainment entitled, of all things, Dreams of the Bald-Headed housewife. Pam Hyatt is a 34 year old housewife who wakes up one morning to discover she has shaved her head, but

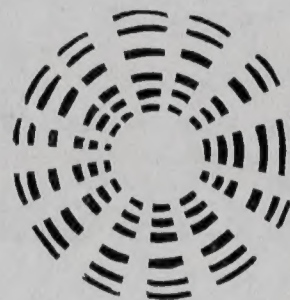

has no memory of doing so. She goes to her trusty psychiatrist Dr. Ned and — But why spoil it, tune in and find out for yourself. That's on CBC Showcase June 7 Part II continues in the Freudian vein with a psychological tongue-in-cheek musical interpretation of dreams, The Dream-Makers.
